FOR

THIS AGREEMENT FOR PROFESSIONAL LANDSCAPE ARCHITECTURAL SERVICES (this "Agreement") is made and entered into this 31st day of August, 2010, by and between the VILLAGE OF KEY BISCAYNE, a Florida municipal corporation (hereinafter referred to as "Village") and SAVINO & MILLER DESIGN STUDIO, P.A., a Florida corporation, as professional architects (hereinafter referred to as "SAVINO").

RECITALS:

WHEREAS, On April 13, 2010, the Village issued a Request for Qualifications (the "RFQ") for professional services to retain a Landscape Architect to provide Landscape Design and Architect of Record services for a Village park known as the Civic Center Park, located at 530 Crandon Boulevard, Key Biscayne, Florida; and

WHEREAS, the RFQ resulted in the VILLAGE selecting SAVINO as the Landscape Architect for the Civic Center Park, and the VILLAGE desires to enter into an agreement with SAVINO pursuant to the RFQ for the services specifically described in this Agreement, and SAVINO has agreed to provide such services; and

WHEREAS, the CONTRACTOR and VILLAGE, through mutual negotiation, have agreed upon the Scope of Services, a schedule, and fee to engage SAVINO to perform the services as specified below.

NOW, THEREFORE, In consideration of the mutual covenants and conditions set forth in this Agreement, the VILLAGE and SAVINO agree as follows:

I. SCOPE OF SERVICES.

A. Phase I – Planning Services. SAVINO shall perform the Planning Services set forth in detail in Schedule “A” attached hereto (the "Phase I Services"), including but not limited to, Project meetings with VILLAGE staff and Council members, development of design concept and alternatives, including Schematic Design, which defines and depicts the character, scale and relationship of the components of the Village's Civic Center Park project (the “Project”), development of budget level cost estimates for each alternative, draft and final design reports, community design and VILLAGE Council workshops, and final presentation to the Village Council for approval.

B. Phase II – Design Services.

1. Design Development Phase. SAVINO will revise and further develop the Schematic Design based upon Village Council review and approval, and will provide a detailed site plan; dimensioned floor plans of the Project; elevation drawings which depict the design intent, exterior finishes, colors, and materials to be used. The work product of this Phase II will define the materials and methods required to construct the Project. This will include information for pricing and pre-construction engineering (value engineering). In developing the design, SAVINO shall consider preliminary construction cost estimates to be provided by an independent consultant, to be selected by the Village Council with the assistance of SAVINO. SAVINO will present the design along with appropriate analysis and references to such construction cost estimate to the Village Council, and will incorporate revisions of the design until a consensus is reached, the design is developed, and a final design concept and budget is approved by the Village Council.

2. Subsequent Phases of Service. After completion of Phase II Design Services, SAVINO shall provide all necessary continuing architectural, engineering and landscape services for each of Phases III-V, subject to specific Village Council approvals to proceed to each of such subsequent Phases of the Project, as follows:

C. Phase III - Construction Documents Phase. Based upon an approved design development package, complete construction documents will be prepared by SAVINO which define the materials, components and building systems for the Project. The documents will address site issues and utilities; structural components; mechanical systems including plumbing and HVAC; and electrical systems. The completed construction documents shall include civil engineering, architectural, structural, mechanical, HVAC, fire protection, and electrical drawings and all other items as required to solicit bids and to obtain a building permit. SAVINO shall utilize subcontractors approved by Village for the provision of engineering and other services as required for the Project (the "Subcontracted Services") which are outside of the architectural, planning and interior design services which SAVINO is licensed to provide directly, including but not limited to architectural, structural, civil, mechanical, electrical, plumbing, fire protection and lighting. Subcontracted Services will be

included in the negotiated compensation, subject to Village Council or Village Manager approval of the fees for such subcontractors.

D. Phase IV - Bidding and Award Services Phase. SAVINO will assist the Village in reviewing the qualifications of potential bidders and will review bids on behalf of the Village. Although SAVINO might make recommendations, final selection of a contractor is the sole responsibility of the Village. The Village will also be responsible for the legal representation in connection with the preparation of a contract for construction between the Village and successful bidder. The construction contract shall accompany the detailed specifications prepared by SAVINO. The Village shall also be responsible for all printing costs associated with the distribution of documents for the purpose of obtaining bids and copies of all documents submitted for review by the Village's Building and Zoning Department, utilities and other agencies having jurisdiction for permitting and approvals.

E. Phase V - Construction Administration Services Phase. SAVINO will provide services during construction to include: review of contract submittals; responses to questions and issuance of clarifications related to the documents; periodic observation of the work to assist the Village in monitoring the progress of the work and compliance with the requirements of the contract documents; review and recommendation of the contractor's request for payments; review and preparation of change orders as may be required; final inspection; punch list and contract closeout. SAVINO will assist in obtaining all required building permits and governmental approvals.

F. Council Approval. The decision to authorize SAVINO to proceed to perform services on each Phase of the project beyond Phase I, shall be at the sole discretion of the Village Council.
